

MW PLUGS

The Lansas® MW™ is the most versatile and cost effective single-size plug available.

Our 4"-12" MW's™ are molded with "o-ring" sealing ribs and each plug is equipped with a replaceable bypass pipe.

Our 15" - 24" MW's™ are stocked with either a 4", 6", or 8" bypass .

For air or water testing, sewer bypass or simply stopping the flow, the MW™ offers the best value in single size plugs.

Test caps are available to convert your flow thru pipe plugs over to use in air testing applications. A PVC cap is supplied with each plug with up to a 6" NPT by-pass.

M.W. Plug (Multi-Worker)
