

GloBugTM Lighting System

See the Light

The heart of the GloBug System is our innovative Balloon Light.

All models offer a combined E-Ballast, roll cage bulb protector, and automatic fan assembly. Also, GloBug balloons are made from a fire retardant material. This diffused lighting system is available in a variety of configurations and offers the finest glare-free lighting system in the industry.

A full variety of balloon styles...

GBBAL115D — Balloon fits all E-ballast 1,000 watt units
