 P/N	 Hose Con.	Jets	Suction Pipe Diameter
2730	1/2"	6	2.95/3.14"
2732	1/2"	6	3.93/4.33"
2734	1/2"	6	4.92/5.31"
2736	3/4"	6	5.9"

The Crown nozzle can be easily attached to the suction tube for hydro-excavation. Six powerful jets loosen and break up material which can then be effortlessly transported to the debris tank. The crown is constructed of hardened stainless hardened steel construction and has replaceable one-piece ceramic jets.
