

# TURBO I

**The Turbo I rigid chain cutter was engineered to be powerful, durable, user friendly and require low maintenance.** This cutter uses turbine technology in combination with 3D fluid mechanics to deliver unmatched cutting performance in its operating range. Roots, grease, and mineral deposits do not stand a chance against the Turbo I. Rigid skids are available from 4" to 6". The cutter comes standard with one-piece ceramic inserts, a high-pressure swivel and is capable of being used with recycled water.
