

## SPOT REPAIR CARRIER

New  
Sizes

### SPOT REPAIR CARRIER

The LANSAS Spot Repair (Point Repair) Carrier was designed for use with most of the Spot Repair Systems on the Market today. For Maximum flexibility and durability our carriers are designed with a fabric reinforced natural rubber bladder. LANSAS has two new sizes available. A 3"-4" and 4"-6" Multi-Size Carrier featuring a domed aluminum end to help navigate through any bends or offset joints in the pipe. Also available is a wheel kit or our new cage design on sizes 6"-10" and larger.

Custom Designs  
Are Always™ Available

## 5-Line™ SINGLE-SIZE DISC PLUGS

The LANSAS Single Size Disc Plug has been around for more than 60 years and was the first plug manufactured by LANSAS in 1955! The LANSAS Single Size Disc Plug has been redesigned from the ground up. It now has a wider footprint in the pipe and a bladder made with our newly reformulated rubber compound. With **RP2** the addition of the Pressure Relief Valve the Disc Plug is now part of the 5-Line™. These plugs are available in standard sizes up to 96" in diameter. Custom sizes are available up to 152" in diameter in virtually any shape desirable. Disc plugs can be sectioned to fit through smaller openings. Note: Sectioned plugs are not recommended for air testing.

## "E-Z PLUG"™ ADAPTER

### THE LANSAS "E-Z PLUG"™ SYSTEM

is designed to provide a safe, fast, and cost effective method for plugging gravity flow pipe lines.

The "E-Z Plug"™ system will utilize an adapter and either a new or existing single or multi-size test plug or by-pass plug. By using the "E-Z Plug"™ system you will eliminate the need to set up for confined space entry when installing test plugs. The time required to install a test plug will be reduced to only a few minutes. The cost will be reduced by thousands of dollars by eliminating ventilators, safety harnesses, gas detectors, and other costly equipment. The LANSAS "E-Z Plug"™ system is designed to save time and money on every job. The "EZ-Plug"™ adapter can be used on any plug that has a removable 3/8" eye-bolt.

new 8" SST™ Plug

## MULTI-SIZE WASHING BALLS

**THE LANSAS MULTI-SIZE WASHING BALLS** have a similar design to the original Wayne Ball. This design, along with adequate head pressure, creates a water vortex action along the pipe walls. This action will wash away packed sand, sludge, rock, grease, and other debris. The Multi-Size Washing Ball is built with the same design and construction as our Domehead™ plugs. These balls have a water fill port that allows the user to control the buoyancy. This feature enhances the performance of these products.
